

A Prayer for Youth

Beloved I AM THAT I AM and Holy Christ Self of all, I AM grateful for your daily guidance and protection. I appreciate your divine intercession through Mighty Victory, Justina, and their Legions of Victory Angels, as they create spirals of transcendence, self-realization and infinite love on behalf of Humanity. Let the planetary body welcome this quickening!

I specifically pray for our children and youth, that they may find God within and have the courage to step into their sovereign destiny as they reclaim their freedom to express their essence and cherish their soul's virtues and creative desires. Inspire them to find the Teachings and to walk an honorable Path so that they are not led astray by the dark forces and can preserve their dignity and integrity. Let them remember their intrinsic value and answer their divine calling, without being misled by an artificial sense of guilt, shame, or fear. Allow them to be present with their purpose-mission and know that they are the victorious ones; they are here to make their unique contribution and leave their Legacy of Light. They are being chosen to lead the way for mankind!

God, may you guide and protect these **precious souls** as they navigate their human-divine journey so that they don't get corrupted and can always discern the Right Way. Mighty Victory and Justina, thank you for the dispensation that you have received from the Great Central Sun that all children in the earth shall have a single, powerful, mighty presence of an **angel of Victory*** from your bands through the age of thirty-three. Please, allow them to make a conscious connection with their angel so that they always feel the grace of God and are fulfilled. Hail, Mighty Victory! To God Be the Glory Forever and Ever, Amen.
